**To Whom It May Concern,**

We are pleased to certify that **Gevik Babakhani** has successfully completed the SolidProof KYC (Know Your Customer) process. This process included a comprehensive evaluation of identity verification and a professional interview to assess their expertise in the blockchain domain.

Based on their demonstrated knowledge, expertise, and unwavering adherence to our stringent standards, **Gevik Babakhani** has been officially recognized by SolidProof as a **Certified Blockchain Consultant**. This designation acknowledges their capability to provide expert guidance and consultation in various blockchain-related areas.

**Certification Details**

**KYC Certificate:** KYC\_Certificate\_Individual\_Gevik\_Babakhani

**Evaluation Date:** November, 15th 2024

**Certification Validity:** 24 months

**Certification Criteria**

**I. Identity Verification**

- Successfully verified through SolidProof's rigorous KYC procedures.

**II. Knowledge Assessment**

- Demonstrated expertise by passing a comprehensive professional interview focused on blockchain technologies.

**III. Professional Standards**

- Met and upheld the professional standards required to operate as a Blockchain Consultant within SolidProof's framework.

This certification is granted exclusively by **SolidProof TrustNet**, operating under the auspices of **FutureVisions Deutschland**. It stands as a testament to **Gevik Babakhani**'s qualifications and commitment to excellence in the blockchain consultancy field.
